PROFIL

IT Specialist for Application Development with a focus on Python backend development and automation. I bring practical experience from two internships and independent projects, and I am looking for my first permanent position in full-stack software development.

PROFESSIONAL EXPERIENCE

Backend Development Internship

Aug. 2024 - Mar. 2025

Christoph Backhaus IT

Duisburg

- Developed Python/SQL tools for process automation, reducing manual processing time by approx. 30%.
- Implemented pytest-based unit and integration tests to improve quality assurance for production applications
- Maintained requirements and API documentation in agile Scrum sprints with code reviews
- Analyzed workflows and implemented automation modules for internal business processes

Web Developer Internship

Mar. 2023 - Jul. 2023

Heim & Haus Produktion u. Vertrieb GmbH

Duisburg

- Developed responsive web applications using Vue.js, Vuetify, HTML/CSS, and MySQL
- Optimized UI components and introduced structured Git workflows in the frontend team
- Fixed frontend bugs and database issues using browser DevTools and SQL queries

Machine and Plant Operator

Jan. 2021 – Dec. 2022

AS Kunststoffprofile GmbH

Oberhausen

- Controlled and monitored process flows, stored goods, and performed production checks

EDUCATION

Computer Science Expert – Subject Area: Software Development (IHK)

Aug. 2023 - Jan. 2026

Institut für Berufliche Bildung AG

Duisburg

Graduation: January 2026

Machine and Plant Operator (IHK)

Sep. 2018 - Aug. 2020

Kann GmbH

Neumarkt i.d. Oberpfalz

PROJECTS

Lazy Controller

[GitHub](#)

Python, Android, TCP/IP-Sockets, Windows Server

- Developed a cross-platform application for controlling mouse and keyboard input via Wi-Fi
- Implemented stable client-server communication with error handling and automatic reconnect

ClickShare

[GitHub](#)

Node.js, Express, PostgreSQL, OAuth 2.0, REST APIs

- Developed a full-stack web application with OAuth 2.0 and user management
- Designed a normalized PostgreSQL schema with optimized queries and indexing

EasyDailyReport

Python, SQL, AI Automation, Reporting

- Developed an AI-supported tool for the automated creation of training records/reports
- Automated recurring reporting processes with Python/SQL and error logging

n8n Automation (AI-News Digest)

[Live Demo](#)

n8n, Automation, AI-News Digest, Email

- Developed an automated workflow with n8n that summarizes daily tech and AI news, sends it via email, and automatically creates to-do reminders

SKILLS

Programming Languages: Python, JavaScript, TypeScript, SQL

Backend: Node.js, Express, REST APIs, Python

Frontend: React, Vue.js, Vuetify, HTML, CSS

Databases: PostgreSQL, MySQL

Cloud & DevOps: AWS, Docker, Linux, GitHub Actions (CI/CD)

AI & Automation: n8n, Power Automate, Claude

Tools & Methods: Git, GitHub, Power BI, OOP, Design Patterns, MVC, Scrum, Testing

CERTIFICATIONS

- AWS Solutions Architect Associate, 2025
- Networking Basics, Cisco Networking Academy
- Generative AI Fundamentals
- Data Science Fundamentals
- Prompt Engineering Fundamentals
- UML Class Diagrams
